Welcome

Hercules is widely recognized as the industry’s premier value brand. Since 1952, independent tire dealers and distributors have trusted Hercules to deliver outstanding quality, a comprehensive line of passenger, light truck and commercial products, and industry leading warranty coverage. And with exceptional fill rates, high profit potential, and first rate service and support, Hercules is helping many dealers move their businesses to the next level.

Exceptional Tires. Extraordinary Value.

---

Tire sizes, data specifications and product availability change frequently. While every effort has been made to verify the accuracy of this information, it should be considered as approximate and subject to change. Please check with your sales representative for the most recent updates.

FEATURES AND BENEFITS

• High-grade silica tread compound and Hercules EvacuTrack™ grooves create better wet traction.

• 3D UltraWave™ siping and an asymmetric tread design deliver greater control and tighter handling.

• CoolCourse™ temperature control system optimizes performance and enhances tire life.

• 500 AA UTQG – the highest traction grading possible.

The Raptis R-T5 features a 45,000 mile/75,000 km mileage warranty that includes road hazard protection and the exclusive 30-day “Trust Our Ride” test drive. Mileage warranty and road hazard are valid in the U.S. and Canada only.

* ROAD HAZARD WARRANTY 1ST 50% USABLE TREAD
**Features and Benefits**

- Performance enhanced tread design for cutting-edge traction in all conditions.
- Raised white lettering.
- Looks as good as it performs.

---

**The Hercules H/P 4000 – the classic.**

Developed for dependable performance, the H/P 4000 demonstrates our dedication to producing high quality, affordable performance tires. Available with a smooth raised white lettered sidewall in all the right sizes for your vintage and/or modern muscle car. Large multi-siped tread blocks taper into a rounded shoulder to provide sure-footed traction under all conditions. A wide solid center rib helps to deliver straight line stability at higher speeds as well as ensuring constant rubber to road contact. Put us to the test and stand out in the crowd with the H/P 4000.

---

**The H/P 4000 features a limited 40,000 mile/ 65,000 km mileage warranty that includes road hazard protection. Mileage warranty and road hazard are valid in U.S. and Canada only.**

*ROAd HAZARD WARRANTY 1ST 50% USABLE TREAD

---

**Hercules H/P 4000**

M+S Rated
FEATURES AND BENEFITS

- Full-depth siping ensures consistent, lasting traction for the life of the tire.
- Solid shoulder with offset grooves promotes greater stability when cornering and reduces road surface noise for a quiet, comfortable ride.
- 3D siping facilitates greater contact with the road and increases the amount of biting edges for improved grip on wet roads and in light snow.
- Advanced silica tread compound provides even wear, low-rolling resistance and enhanced wet traction.
- Asymmetric tread pattern incorporates larger blocks on the outside of the tire for stability and dry traction, and smaller inside elements with dense siping for added traction.
- Semi-solid center rib promotes crisp handling and driver comfort while maintaining traction and water evacuation.

The Roadtour 855 SPE features a limited 85,000 mile/135,000 km for T-rated, 70,000 mile/112,000 km for V/H-rated mileage warranty that includes road hazard protection and the exclusive 30 day “Trust Our Ride” test drive. Mileage warranty and road hazard are valid in U.S. and Canada only.

* ROAD HAZARD WARRANTY 1ST 50% USABLE TREAD
Hercules Roadtour® 655

FEATURES AND BENEFITS

• The most fuel efficient tire in the Hercules passenger lineup with LRR compounding (low rolling resistance).

• Computer optimized tread design greatly reduces road noise and vibrations.

• Touring tread design and siping result in superior all-season performance.

• Nylon overwrap added in the green tire aids in the stability and longevity of the Roadtour 655.

• Profile design and center rib result in crisp steering response and enhance overall road handling characteristics.

The Roadtour 655 features a limited 50,000 mile/80,000 km for V/H-rated, 60,000 mile/100,000 km for T-rated mileage warranty that includes road hazard protection and the exclusive 30 day "Trust Our Ride" test drive. Mileage warranty and road hazard are valid in U.S. and Canada only.

* ROAD HAZARD WARRANTY 1ST 50% USABLE TREAD

The Hercules Roadtour 655 – the intelligent choice.

With options ranging from 14"-17" and speed ratings of V, H and T, the Roadtour 655 has all the bases covered. The computer aided tread design emphasizes the most desirable tire characteristics of today: low rolling resistance tread compounding, noise and vibration suppression, all-season traction, enhanced handling qualities and longevity. The Hercules Roadtour 655 — your silent partner for safe, comfortable and effortless driving.
**FEATURES AND BENEFITS**

- Silica-enhanced compound provides superior traction in wet conditions without tread life reduction.
- Criss-cross grooves create biting edges to deliver wet and light snow traction.
- Provides all-season capability on wet, dry and light snow.
- Cross-block siping delivers crisp handling in inclement weather for 4.0 seasons of superior handling.
- Nylon overwrap enhances construction by adding uniformity and increasing ride stability.
- High void to tread ratio with groove curvature improves water evacuation for outstanding wet handling.

**Hercules Tour 4.0 plus**

- **Silica-enhanced compound** provides superior traction in wet conditions without tread life reduction.
- **Criss-cross grooves** create biting edges to deliver wet and light snow traction.
- **Provides all-season capability** on wet, dry and light snow.
- **Cross-block siping** delivers crisp handling in inclement weather for 4.0 seasons of superior handling.
- **Nylon overwrap** enhances construction by adding uniformity and increasing ride stability.
- **High void to tread ratio with groove curvature** improves water evacuation for outstanding wet handling.

* **ROAD HAZARD WARRANTY 1ST 50% USABLE TREAD*
**FEATURES AND BENEFITS**

- Two full-width belts stabilize tread for control and even wear.
- Tread elements form an effective tread pattern of distinct gripping edges for year-round traction.
- Slotted shoulders and wide grooves provide all-season traction and hydroplaning resistance.
- Variable pitch tread design for a quiet ride.

The Hercules MRX Plus IV – proven all-season performer.

With its simple yet effective 5-rib tread design, the MRX Plus IV provides five full rows of staggered biting blocks engineered to ensure flexibility and afford excellent traction. The variable pitch design helps to keep the ride smooth and minimize vibrations before they reach the interior of your vehicle. Available in a traditional white sidewall design in select sizes. An affordable, all-season tire that will impress with its effectiveness.

The MRX Plus IV features a limited 40,000 mile/65,000 km mileage warranty that includes road hazard protection. Mileage warranty and road hazard valid in U.S. and Canada only.

*ROAD HAZARD WARRANTY 1ST 50% USABLE TREAD*
FEATURES AND BENEFITS

- Two full-width belts stabilize tread for control and even wear.
- Unique center rib design provides cross slot for all-weather traction while maintaining on-center feel.
- Slotted shoulders and wide grooves provide all-season traction and hydroplaning resistance.
- Variable pitch tread design for a quiet ride.
- T-rated.

The Hercules MRX Plus V – an evolution of design.
The symmetric tread of the MRX Plus V incorporates cross-flowing sipes in its handsome 5-rib design to enhance road contact under all-season conditions, ensuring ultimate grip. The attractive sidewall treatment lends an original equipment appearance to your vehicle.

The MRX Plus IV features a limited 40,000 mile/65,000 km mileage warranty that includes road hazard protection. Mileage warranty and road hazard are valid in U.S. and Canada only.

* ROAD HAZARD WARRANTY 1ST 50% USABLE TREAD

Visit herculeswire.com for the most up-to-date spec information
FEATURES AND BENEFITS

- Specifically designed for crossover and SUV applications to provide a smooth ride, long life and excellent traction under all conditions.
- Unique compounding results in a lower rolling resistance for improved fuel economy.
- Computer optimized tread design greatly reduces road noise and vibrations.

The Hercules Roadtour XUV – modern efficiency.
Engineered to complement today’s crossovers and SUVs, the Roadtour XUV delivers polished motoring in an effortless fashion. The clean overall design exhibits a stylish sidewall and an uncomplicated 5-rib tread pattern that effectively provides a comfortable ride, excellent traction and impeccable road manners. The special compounding helps contribute to a lower rolling resistance, improving efficiency and ensuring a long tread life. When it comes time to replace the original equipment tires on your CUV, the Roadtour XUV is a brilliant choice.

The Roadtour XUV features a limited 50,000 mile/80,000 km for H-rated, 60,000 mile/100,000 km for T-rated mileage warranty that includes road hazard protection and the exclusive 30 day “Trust Our Ride” test drive. Mileage warranty and road hazard are valid in U.S. and Canada only.

* ROAD HAZARD WARRANTY 1ST 50% USABLE TREAD

Visit herculestire.com for the most up-to-date spec information.
### FEATURES AND BENEFITS

- **High-grade compound materials** and a sophisticated tread design work in tandem to deliver outstanding wear resistance and durability.
- **Micro-wave siping**, open shoulder design and a unique water guard in the tire’s footprint help maintain contact with the road surface for all-weather, all-road traction.
- **Advanced silica compound** provides exceptional grip in wet conditions, promotes wear resistance and produces lower rolling resistance.
- **Exceptional stability and excellent feedback** are achieved through innovative tread design and premium construction, resulting in highly-responsive handling.
- **A debossed sidewall and modern symmetric design** lends a high-end, luxury appearance while quality design and construction creates quiet comfort.

---

**Terra Trac Cross-V® All-Around Performance.**

**One-Of-A-Kind Tire.**

Citywide to countryside. Main Street shops to mountaintops.

The Hercules Terra Trac Cross-V makes driving fun. With its premium construction and serious all-road capability, the Terra Trac Cross-V offers the versatility and performance you need—wherever the road takes you. Simply put, the Cross-V was engineered to perform.

---

**The Terra Trac Cross-V features a limited 70,000 mile/112,000 km (CUV/SUV sizes) or 65,000 mile/105,000 km (LT sizes) mileage warranty that includes road hazard protection and the exclusive 30-day “Trust Our Ride” test drive. Mileage warranty and road hazard are valid in U.S. and Canada only.**

---

* ROAD HAZARD WARRANTY 1ST 50% USABLE TREAD
FEATURES AND BENEFITS

• Closed inner shoulder design reduces noise, maximizes stability, resists irregular wear and delivers excellent handling at highway speeds.

• Notched and siped solid center rib offers highly responsive steering and maneuverability.

• Four wide circumferential channel grooves maximize water evacuation to protect against hydroplaning.

• Laterally connected wave siping minimizes irregular wear, creates a quieter ride and enhances water evacuation to boost traction.

• Tread construction features full depth siping and optimized pitch design for a quieter ride.

• Innovative tread profile creates an optimum contact patch area, promoting even wear and prolonged tread life, while a wide footprint delivers high traction and mileage.

The Terra Trac HTS delivers the traction, wear-resistance and ride comfort that you demand for highway driving. Full-depth wave siping leads the list of intelligent design features, ensuring all-season traction and lasting cosmetic appeal. The tread design also boasts features that deliver highly responsive steering and maneuverability, excellent water evacuation and a quiet ride. The Terra Trac HTS is a stand-out example of the value Hercules offers!

The Terra Trac HTS features a limited 50,000 mile/80,000 km (SUV sizes) or 45,000 mile/75,000 km (LT and floatation sizes) mileage warranty that includes road hazard protection.

* ROAD HAZARD WARRANTY 1ST 50% USABLE TREAD
FEATURES AND BENEFITS

- 12% more lateral grooves and 29% more sipes** around the circumference of the tire boost traction in adverse weather conditions.

- Deep areas in the siping ensure traction performance for the life of the tire and provide lasting aesthetic appeal.

- Tough tread design with silica-infused AT-C tread compound delivers superior wet and off-road traction.

- Pitch sequence approximates a more comfortable “grey noise” by spreading the sound energy over a broad range of frequencies.

- Latest generation mold profile shape creates a more stable contact patch for controlled and balanced “on-and-off-road performance, all-weather traction and” even tread wear.

Hercules Terra Trac® AT II | On/Off Road All Terrain

- 12% more lateral grooves and 29% more sipes** around the circumference of the tire boost traction in adverse weather conditions.

- Deep areas in the siping ensure traction performance for the life of the tire and provide lasting aesthetic appeal.

- Tough tread design with silica-infused AT-C tread compound delivers superior wet and off-road traction.

- Pitch sequence approximates a more comfortable “grey noise” by spreading the sound energy over a broad range of frequencies.

**FEATURES AND BENEFITS**

- Designed with “stone-blockers” to increase puncture resistance and cut/chip performance.
- XXL scooping tread lugs give the Trail Digger maximum traction in mud, gravel and sand.
- Pinned for studs.
- Scalloped shoulder lugs provide superb traction in soft surface applications.

The Hercules Terra Trac® D/T – uncompromised traction

Aggressive and uncompromising, the deep tread Terra Trac D/T is a premium, multi-purpose traction tire designed for a range of on and off-road applications. The versatile Terra Trac D/T not only excels on any surface like an all-terrain tire, but digs in to maximize power and efficiency in extreme conditions or tough commercial applications. Built for all-season performance, the Terra Trac D/T also features enhanced stud-hole placements for solid winter traction.

The Terra Trac D/T features a road hazard protection warranty. Road hazard warranty is valid in the U.S. and Canada only.

**FEATURES AND BENEFITS**

- Five-rib design for smooth running performance and exceptionally long mileage.
- Aggressive center rib gives great all-season performance and outstanding road traction.
- Wide tread arc provides traction and long, even treadwear.
- Closed shoulder design promotes balanced treadwear and good steering control.
- Commercial grade compound features excellent handling and long mileage.

The Terra Trac Radial Rib features a limited 40,000 miles/65,000 km mileage warranty. Mileage warranty valid in U.S. and Canada only.

---

**Hercules Bias Trailer LPT • Power STR Radial Trailer**

**Hercules Bias Trailer LPT**

- Designed for high speed mobile home applications and slower speed overloaded hauler applications.
- Reinforced heavy duty nylon cord construction.
- Reinforced steel bead to carry heavy loads.

**Hercules Power STR Radial Trailer**

- Engineered specifically for trailer applications.
- Advanced tread compound reduces rolling resistance, improves fuel economy and promotes long lasting wear.

---

**Visit herculestire.com for the most up-to-date spec information**
FEATURES AND BENEFITS

• ‘Vacuum’ siping on shoulders draws in water to facilitate direct contact with the road surface, releasing it as the tread block rolls upward.

• Hercules’ exclusive, new AWC® compound uses silica and clean oils to provide superior lateral and linear grip at low temperatures, while offering outstanding performance in all weather conditions.

• Advanced siping uses the interaction of wide and narrow sipes to maintain a firm grip on quickly changing winter surface conditions.

• Tread blocks feature a jagged edge to aid in deceleration and create bite for efficient braking on slippery surfaces.

• Precise tread block geometry and overall structural design create responsive steering and confident handling.

An environmentally friendly tire, the Hercules Avalanche® R G2 has very low rolling resistance and is manufactured using purified oils for cleaner, non-harmful use. The Hercules Eco FT logo signifies that the Hercules Avalanche® R G2 is an environmentally conscious option.

The Avalanche R G2 features a road hazard protection warranty. Road hazard warranty is valid in U.S. and Canada only.

### H-901 Highway All Steel Commercial LT/ST
- Durable all steel construction distributes forces of acceleration, cornering, and braking for longer wear.
- Tread design features better foot print and more biting edges for better grip in snow.
- Active raps for improved traction.
- Special tread compound provides exceptional wet handling and braking.
- Super high tensile steel belts for durability.
- Strong casing gives stability and strength for applications with demanding loads.

H-933 Winter Service Drive

- Specialized drive tire designed for enhanced acceleration and braking capability in winter conditions.
- Meets severe snow performance requirements in North America.
- Formulated with unique tread compound that stays pliable in the coldest temperatures.
- Deep tread and extra-wide footprint delivers long original tread life and stability.
- Unique siping provides interlocking capability for enhanced tread block rigidity and maximizes biting edges for exceptional traction on snow and other surfaces.
- Heavy-duty all-steel casing for excellent retreadability.

Hercules Warranty Program
(Applicable in the United States and Canada only)

Congratulations, you have just purchased what we believe is the finest value available in the tire industry. We are proud of the quality and performance of the wide range of Hercules Tires products, and we realize that your continued satisfaction is essential to our success. Millions of Hercules tires are on the road right now delivering long mileage and outstanding performance. These tires are backed by a support network of thousands of dealers worldwide. Additionally, Hercules offers a unique protection plan to ensure you’ll never be caught in a town without a Hercules dealer in the unlikely event that you would need a warranty adjustment.

This Warranty and Adjustment Policy is not a warranty that your tire will not fail or become unserviceable if neglected or mistreated.

Important

The following contains important warranty information which you must have in order to obtain a warranty adjustment. This warranty information also includes the Hercules Road Hazard Warranty Program and the Hercules Mileage Warranty Program. We suggest you keep this in the glove box of your car at all times. In the unlikely event that you ever need to request a warranty adjustment, present this to your Hercules dealer, and they will have all the information needed to promptly address your request.

Eligibility

Eligible tires are covered by this Limited Warranty and Adjustment Policy for a minimum of 36 months from the date of original tire manufacture date or purchase date. (Without proof of purchase, date of manufacture will be used to determine age.)

This Limited Warranty and Adjustment Policy applies to the original owner of new Hercules branded SUV/Metric/Light Truck and Passenger tires that are new replacement market tires bearing the Hercules brand name and D.O.T. Tire Identification Number, operated in normal service, and used on the same vehicle on which they were originally installed according to the vehicle manufacturer’s recommendations. Additionally, tires used in commercial service including, but not limited to, taxicabs, police cars, emergency vehicles and non-passenger service vehicles are not eligible for the Road Hazard and Mileage Warranty Coverage set forth in this Limited Warranty and Adjustment Policy. Tires on any vehicle registered and normally operated outside the United States and Canada are excluded from eligibility under this Limited Warranty and Adjustment Policy.

Passenger Car Tires

When used in normal noncommercial passenger car service, tires which become unserviceable due to defects in workmanship and material will be replaced on a “no charge” basis during the first 2/32nds of an inch (1.6 mm) of original usable tread. The cost of mounting, balancing and any other service charges including applicable taxes are excluded from reimbursement. Thereafter, the adjustment replacement price will be based upon tread wear prorated upon the basis of the original purchase price. Passenger car tires are considered 100% worn when the remaining tread depth is 2/32nds of an inch or less. Blemished passenger car tires are not adjustable. Out of balance, out of round or ride disturbance tire adjustments will only be made during the first 2/32nds of an inch of the original usable tread depth. Three (3) or more tires from the same vehicle will not be accepted. All Hercules passenger car tire adjustments will be subject to and made in conformity with the following conditions and exclusions of the Hercules Limited Warranty.

Light Truck Tires

Hercules light truck tires which become unserviceable due to defects in workmanship and material will be considered adjustable according to the following terms of this Limited Warranty. Blemished truck tires are not adjustable. All Hercules truck tire adjustments will be subject to and made in conformity with the following conditions and exclusions of the Hercules Limited Warranty.

Road Hazard Protection

This Road Hazard Coverage is offered upon the purchase of any new Hercules branded SUV/Metric/Light Truck and passenger tires purchased in Canada or the United States to promote goodwill and is not a warranty that your tire will not fail or become unserviceable due to a road hazard injury. This Road Hazard Coverage is a prorated two (2) year protection plan that applies to all Hercules brand tires as mentioned above that are purchased new from an authorized Hercules Tires dealer and is valid under the certain specified conditions as detailed below.

This warranty provides credit based upon 50% of remaining usable tread depth, whichever comes first. When an eligible tire is damaged during the first 2/32nds of an inch (1.6 mm) of treadwear or first 12 months from date of purchase, whichever came first, the tire will be replaced with a comparable Hercules brand tire free of charge.

This warranty provides credit based upon 50% of remaining usable tread at the time of failure due to road hazard. “Usable Tread” is defined as the original tread depth of a tire less 2/32nds of an inch. Credit is prorated based on a tire’s tread depth of between 2/32nds and 50% of treadwear. When the tire has 2/32nds of an inch or less in tread depth, it is considered worn out.

Road Hazard Exclusions

This Road Hazard Protection excludes Hercules Tires Medium Truck tires.

All exclusions described under the section of “What is not covered” within this Limited Warranty and other exclusions include, but are not limited to, effects caused by:

1. A tire that is damaged /failed due to vandalism.
2. A tire that is damaged /failed due to an accident.

Visit herculestire.com for the most up-to-date spec information.
Limited Warranty

HERCULES LINE COVERAGE
MILEAGE WARRANTY & ROAD HAZARD

If the tire wears down to the treadwear indicator bars (2/32") and the tire has not delivered the warranted miles, Hercules will provide a pro-rated adjustment based on actual mileage delivered. The cost of mounting, balancing and any other service charges including applicable taxes are excluded from reimbursement.

WHAT IS NOT COVERED BY THIS LIMITED WARRANTY
THE FOLLOWING ARE NOT COVERED:
• Hercules does not warrant any repaired or "blem" tire.
• Road hazard: Also see exclusions under the Road Hazard Policy.
• Improper operation or maintenance: This includes, but is not limited to, effects caused by:
  a) Improper tire inflation and/or improper load/speed practices.
  b) Improper or insufficient tire rotation.

Any tire with premature or irregular wear caused by failing to follow the recommended tire rotation pattern and/or mileage intervals as delineated by this Limited Warranty and Adjustment Policy. Wear due to improper vehicle alignment including but not limited to, uneven, cupping, irregular, spotty, and feathering wear. Damage due to:
• Rim irregularities or rim damage.
• Snow chains.
• Vehicle mechanical problems, including brake problems, and vehicle wheel alignment.
• Extreme temperature exposure.
• Negligent and abusive driving such as tire splintering, or racing.
• Improper tire storage.
• Chemical corrosion or fire.
• Use contrary to the vehicle manufacturer's tire recommendations.
• Improper dually size and/or installation.
• Improper mounting or demounting.
• Alteration: such as, but not limited to, adding a white inlay on blackwall, tread regrooving, tire truing or siping, or adding sealant materials to the tire.
• Weather checking/cracking: not covered after 24 months from the date of purchase.

HERCULES’ OBLIGATIONS
Replacement of Eligible Tires will be made by any Hercules Tires authorized dealer or vehicle dealer authorized to handle Hercules brand tire adjustments (“Authorized Dealer”). Hercules will replace the tire pursuant to the terms of this Limited Warranty and Adjustment Policy. Tires that are replaced under an adjustment basis under this Limited Warranty and Adjustment Policy become the property of HERCULES.

OWNER’S OBLIGATIONS
To make an eligible claim under this Limited Warranty and Adjustment Policy, the owner must present a tire with the claim to an Authorized Dealer. For the nearest Authorized Dealer, consult a local directory, internet search engine, www.herculestire.com, or call 1-800-677-3573. Owner must present an original tire sales invoice indicating the date of purchase. Owner will be required to sign the Hercules Limited Warranty Claim Form. Owner is responsible for paying all applicable taxes set forth under this Limited Warranty and Adjustment Policy. Owner is also responsible for paying local tire disposal fees and any parts or service regardless of mileage or months of service. This includes payment for tire rotation, alignment, towing, road service and valve stems and all applicable taxes.

Any tire with premature or irregular wear caused by failing to follow the recommended tire rotation pattern and/or mileage intervals as delineated by this Limited Warranty and Adjustment Policy. Wear due to improper vehicle alignment including but not limited to, uneven, cupping, irregular, spotty, and feathering wear. Damage due to:
• Rim irregularities or rim damage.
• Snow chains.
• Vehicle mechanical problems, including brake problems, and vehicle wheel alignment.
• Extreme temperature exposure.
• Negligent and abusive driving such as tire splintering, or racing.
• Improper tire storage.
• Chemical corrosion or fire.
• Use contrary to the vehicle manufacturer’s tire recommendations.
• Improper dually size and/or installation.
• Improper mounting or demounting.
• Alteration: such as, but not limited to, adding a white inlay on blackwall, tread regrooving, tire truing or siping, or adding sealant materials to the tire.
• Weather checking/cracking: not covered after 24 months from the date of purchase.

WHAT IS NOT COVERED BY THIS LIMITED WARRANTY
THE FOLLOWING ARE NOT COVERED:
• Hercules does not warrant any repaired or “blem” tire.
• Road hazard: Also see exclusions under the Road Hazard Policy.
• Improper operation or maintenance: This includes, but is not limited to, effects caused by:
  a) Improper tire inflation and/or improper load/speed practices.
  b) Improper or insufficient tire rotation.
Limited Warranty

FEDERAL LAW, THIS LIMITED WARRANTY AND ADJUSTMENT POLICY OF HERCULES EXCEPT AS EXPRESSLY WRITTEN IN THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE OR CANADIAN PROVINCE TO PROVINCE. THIS IS NOT AN EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES. SO THE ABOVE LIMITATION OR EXCLUSION DOES NOT COVER YOU FOR ANY LOSS OF TIME, LOSS OF USE OF THE VEHICLE, OR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES RELATING TO THE QUALITY, CONDITION OR PERFORMANCE OF THE PRODUCT. SOME STATES AND PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES SO THE ABOVE EXCLUSION MAY NOT APPLY TO YOU.

HERCULES TIRE & RUBBER COMPANY RESERVES THE RIGHT TO THE FINAL INSPECTION DECISION FOR ALL RETURNED TIRES. THIS LIMITED WARRANTY AND ADJUSTMENT POLICY IS MADE IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. HERCULES EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

WHO IS ELIGIBLE?
You are eligible for the benefits of this warranty if:
• You are the owner of new Hercules brand medium radial truck tires
• Your tires bear Department of Transportation-prescribed tire identification numbers and are not branded “NA” (Not Adjustable) or “Blem” (Blemish)
• Your Hercules truck tires have been used only on the vehicle on which they were originally installed according to the vehicle manufacturer’s or tire manufacturer’s recommendations.

WHAT IS COVERED, AND FOR HOW LONG?
Free Tire Replacement – Hercules truck tires covered by this warranty that become unseivercivable due to a defect in workmanship or material during the first 50% of the original usable tread life (original tread depth minus 2/32”), will be replaced with a comparable new Hercules tire without charge. You pay only for the mounting, balancing and full F.E.T. or T.S.F. (Without proof of purchase, date of manufacture will be used to determine age). 50% free replacement applies to tires purchased after January 1, 2014.

HOW WILL PRORATED CHARGES BE CALCULATED?
The replacement price will be calculated using the current Hercules selling price and multiplying by the percentage of original usable tread (that is remaining at the time of replacement).

WHAT IS A COMPARABLE TIRE?
A “comparable” new Hercules tire may either be the same line of tire or, in the event that the tire is not available, a tire of the same basic construction and quality with a different sidewall or tread design. If a comparable tire is not available, a comparable new Hercules tire, or, in the event that the tire is not available, a tire of the same basic construction and quality with a different sidewall or tread design.

WHO IS ELIGIBLE?
You are eligible for the benefits of this warranty if:
• You are the owner of new Hercules brand medium radial truck tires (that is remaining at the time of replacement).

WHAT IS NOT COVERED BY THIS WARRANTY?
7. Failure due to improper or faulty tube.
8. Tires used for racing.

WHERE DOES THE WARRANTY END?
A tire has delivered its full original treadlife and the new tire coverage of this warranty ends when the treadwear indicators become visible, or five (5) years from the date of original tire manufacture or new tire purchase date (without proof of purchase, date of manufacture will be used to determine age), whichever comes first. Smaller Tires: Verified tires have an extended warranty of six (6) years from date of manufacture or new tire purchase date.

HOW DO YOU OBTAIN AN ADJUSTMENT?
In order to be eligible for Hercules Limited Warranty service, the owner must:
• Present the tire to an authorized Hercules retailer, and
• Present proof of purchase (if applicable to faction of the retailer), and
• Complete and sign a Hercules Warranty Claim Form, which is available at any authorized dealer, and
• Pay the amount due on a new tire, less the amount of credit, including taxes, mounting and balancing charges, or cost of other services ordered.

Contact your authorized Hercules Tire dealer for warranty information, policies and procedures.

DISCLAIMER
This warranty, or any warranty stated or referred to herein, is exclusive and in lieu of any other warranty regarding the quality of Hercules Tires, whether expressed or implied, and remedies for breach thereof shall be limited to those specifically provided herein.

GENERAL
All tire adjustments under this Limited Warranty are contingent upon:

a. Completion of the Registration and Limited Warranty forms at the time of sale.

b. The subject tire not having been mounted on any other vehicle than that on which it was first mounted.

c. The claim being presented by the original purchaser of the subject tire.

d. Copy of original invoice. You must also present personal identification (e.g., driver’s license) and vehicle registration upon request and must make the vehicle on which the tires were mounted available for inspection.

No adjustment pursuant to this Limited Warranty shall in any way be determined or construed as an admission or indication on the part of Hercules or on any other party that any tire or tube adjusted or determined to be adjustable is in fact either defective in workmanship and/or material, or poor or merchantable quality or in any way unfit for the use for which it was intended, or serve to set a precedent for any further adjustment. This Limited Warranty specifically excludes and does not cover you for any loss of time, loss of use of the vehicle, or any incidental or consequential damages relating to the quality, condition or performance of the product. Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages so the above exclusion may not apply to you.

HERCULES TIRE & RUBBER COMPANY RESERVES THE RIGHT TO THE FINAL INSPECTION DECISION FOR ALL RETURNED TIRES. THIS LIMITED WARRANTY AND ADJUSTMENT POLICY IS MADE IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. HERCULES EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

WHAT IS COVERED, AND FOR HOW LONG?
Free Tire Replacement – Hercules truck tires covered by this warranty that become unseivercivable due to a defect in workmanship or material during the first 50% of the original usable tread life (original tread depth minus 2/32”), will be replaced with a comparable new Hercules tire without charge. You pay only for the mounting, balancing and full F.E.T. or T.S.F. (Without proof of purchase, date of manufacture will be used to determine age). 50% free replacement applies to tires purchased after January 1, 2014.

Prorated Tire Replacement – Tires worn beyond the first 50% of usable tread life that become unseivercivable due to a defect in workmanship or material will be replaced on a prorated basis. You are responsible for mounting, balancing and full F.E.T. or T.S.F.

HOW WILL PRORATED CHARGES BE CALCULATED?
The replacement price will be calculated using the current Hercules selling price and multiplying by the percentage of original usable tread (that is remaining at the time of replacement).

WHAT IS A COMPARABLE TIRE?
A “comparable” new Hercules tire may either be the same line of tire or, in the event that the tire is not available, a tire of the same basic construction and quality with a different sidewall or tread design. If a comparable tire is not available, a comparable new Hercules tire, or, in the event that the tire is not available, a tire of the same basic construction and quality with a different sidewall or tread design.

WHO IS ELIGIBLE?
You are eligible for the benefits of this warranty if:
• You are the owner of new Hercules brand medium radial truck tires (that is remaining at the time of replacement).

WHAT IS NOT COVERED BY THIS WARRANTY?
7. Failure due to improper or faulty tube.
8. Tires used for racing.

WHERE DOES THE WARRANTY END?
A tire has delivered its full original treadlife and the new tire coverage of this warranty ends when the treadwear indicators become visible, or five (5) years from the date of original tire manufacture or new tire purchase date (without proof of purchase, date of manufacture will be used to determine age), whichever comes first. Smaller Tires: Verified tires have an extended warranty of six (6) years from date of manufacture or new tire purchase date.

HOW DO YOU OBTAIN AN ADJUSTMENT?
In order to be eligible for Hercules Limited Warranty service, the owner must:
• Present the tire to an authorized Hercules retailer, and
• Present proof of purchase (if applicable to faction of the retailer), and
• Complete and sign a Hercules Warranty Claim Form, which is available at any authorized dealer, and
• Pay the amount due on a new tire, less the amount of credit, including taxes, mounting and balancing charges, or cost of other services ordered.

Contact your authorized Hercules Tire dealer for warranty information, policies and procedures.

DISCLAIMER
This warranty, or any warranty stated or referred to herein, is exclusive and in lieu of any other warranty regarding the quality of Hercules Tires, whether expressed or implied, and remedies for breach thereof shall be limited to those specifically provided herein.
Hercules Brand Casing Warranty

Hercules brand medium radial truck tires are warranted when the tire becomes unserviceable or non-retreadable due to a defect in workmanship or material. Hercules will provide a predetermined casing allowance.

Casing warranty is valid during the 2nd retreaded life or for six (6) years from the date of manufacture, whichever comes first, for SmartWay verified tires and during the 2nd retreaded life or for five (5) years from the date of manufacture, whichever comes first, for non-SmartWay verified tires.

WHAT IS NOT COVERED BY THIS WARRANTY?

Tires used in mining and logging service are not covered under this warranty.

CASING ALLOWANCES

Size(s) | 1st | 2nd
---|---|---
LT225/75R16, LT245/75R16, LT235/85R16 | $10.00 | –
LT7.50R16 | $10.00 | –

11R22.5, 12R22.5 | $90.00 | $50.00
12.00R24 | $90.00 | $50.00
285/75R24.5 | $90.00 | $50.00
11R24.5 | $90.00 | $50.00

WHEN DOES THE WARRANTY END?

A tire has delivered its full original tread life and the new tire coverage of this warranty ends when the tread wear indicators become visible, or six (6) years for SmartWay verified tires or five (5) years for non-SmartWay verified tires from the date of the original tire manufacture or new tire purchase date (without proof of purchase, date of manufacture will be used to determine age), whichever comes first. Casings may continue to be warranted beyond the new tire coverage.

HOW DO YOU OBTAIN AN ADJUSTMENT?

In order to be eligible for Hercules Limited Warranty service, you must:
- Present the adjusted tire to an authorized Hercules retailer, and
- Present proof of purchase (if applicable) to the retailer, and
- Complete and sign a Hercules Warranty Claim Form, which is available at any authorized dealer, and
- Pay the amount due on a new tire, less the amount of credit, including taxes, mounting and balancing charges, or cost of other services ordered.

DISCLAIMER

This warranty or any warranty stated or referred to herein, is exclusive and in lieu of any other warranty regarding the quality of Hercules Tires, whether expressed or implied, and remedies for breach thereof shall be limited to those specifically provided herein. Casing Warranty valid only in North America.

**POP Materials**

_Hercules Tires has a comprehensive selection of point-of-sale and promotional materials on the Hercules Power Outlet online store. Items available for purchase include:_

- Outdoor Lighted Signs and Banners.
- Brochures and Posters.
- Tire Stack Covers.
- Tire Displays and Stands.
- Tire Inserts.
- More

Visit the Hercules Power Outlet at [www.herclespoweroutlet.com](http://www.herclespoweroutlet.com) to register.

**NOTES**
INDUSTRIAL & OTR Tires
### GRIPPER SKID STEER

- Excellent medium duty tire provides excellent traction in off-road conditions along with a lower lug-to-void ratio for increased wear.
- Premium chunk-and tear-resistant compounding for best-in-class durability.
- Two plies heavier than most value offerings.
- Square shoulder design for even wear.

Hercules Tires Industrial Products
Limited Protection Policy

All Hercules brand industrial tires are covered against defects due to materials and workmanship for up to three (3) or five (5) years from the stated serial number date. See Limited Protection Policy Section below for protection term for specific products.

If a product is deemed defective upon examination and analysis, Hercules Tire will provide an allowance against the original purchase price. The allowance will be determined by Hercules Tire, to be applied toward the purchase of a new product, based on the remaining unused portion of the tread or covered lifetime on the defective product.

The cost of transportation, service, and sales tax already paid will be borne by the owner of the product making the claim. This Limited Protection Policy will not apply if the Hercules product has been installed incorrectly, altered, repaired or misused in any matter whatsoever, which, in Hercules’ sole opinion, has affected performance.

This Protection Policy is the only one applicable from Hercules Tire for industrial products. The company does not recognize any other condition, representation, approval or protection, whether explicit or implicit, or otherwise prescribed by law, other than mentioned above.

Hercules Tire cannot be held responsible for damages or claims caused by the tire whether such damages are direct or indirect, special, consequential or otherwise. Any liability is strictly limited to repair or reduction of an applicable purchase, according to the provisions in the Adjustments Sections below. This Limited Protection Policy is for the exclusive benefit of the owner and is not assignable.

Limited Protection Policy

The following Hercules brand industrial tire(s) are covered against defects in workmanship and material for the original usable tread, limited to five (5) years from the date of manufacture (serial number on tire): GRIPPER SKID STEER, XD44 SKID STEER, F3 BACKHOE, SUPER LUG R4 BACKHOE, SUPER LUG ADV R4 BACKHOE, SKS R1 TRACTIONMASTER, 4L I3 MULTIPURPOSE, L2 LOADER, L3 LOADER, E3/L3 TELEHANDLER, G2/L2 TELEHANDLER.

The following Hercules brand industrial tire(s) are covered against defects in workmanship and material for the original usable tread, limited to three (3) years from the date of manufacture (serial number on tire): RADIAL E3/L3 LOADER / HDR 325.

If your Hercules brand industrial tire is not listed above, contact Hercules Tire to find out the length of coverage on your tire.

If an examination by Hercules Tire shows that any such tire became unserviceable as a result of a workmanship or material related condition, it will, at the option of Hercules Tire, either be repaired at no charge or a credit will be issued towards the purchase price of a replacement tire.

No Charge Adjustment
If a defect in workmanship and materials is found and the tire cannot be repaired within the first 10% of the original usable tread a no charge adjustment will be implemented.

Prorated Adjustment
If a defect in workmanship and materials is found and the tire cannot be repaired after 10% of the original usable tread or thereafter up to three (3) or five (5) years from the serial number date, the prorated credit will be determined by multiplying the original purchase price of the tire by the percentage of usable tread remaining on the tire. Costs for mounting, filling and any other service related charges or applicable taxes are payable by the customer.
General Standards and Exclusions

All Hercules brand industrial tires are designed and manufactured to carry the loads at the appropriate speeds given in the ETRTO-standards.

Mounting
• Sizes of tire and rim should correspond to each other.
• The sizes of the rim should correspond to the ETRTO-standards and tolerances, the type should be flat base or split wheel for solid resilient tires.
• The rim and the rings should be in good shape, without cracks, deformations or excessive rust. Deformed or damaged parts should be replaced.
• The rim load capacity should be equal to or exceed the tire load capacity.
• All rings making part of the rim should be used.
• Only trained people, using the right tooling, working in line with the general and local safety regulations should do tire-fitting

Speeds
Maximum speeds
The maximum speed of the vehicle should not exceed the ETRTO values. They are given for the unloaded vehicle.

Average speeds
As industrial tires are designed for intermittent service only and limited running distances, the working day average speed (WDAS) should not exceed 5 km/h at an average load of 75% of the maximum ETRTO load, this at an ambient temperature of 20°C, for solid tires. For pneumatic tires the maximum continuous average speed (WDAS) should not exceed 10 km/h at an average load of 75% of the maximum ETRTO load. For average loads, average speeds and ambient temperatures exceeding the indicated values and for distances longer than 2 km per journey, the application has to be investigated in detail by Hercules Tire in order to check whether the tire working temperature remains within acceptable and safe limits.

Usage
Normal and moderate use is considered as long as no foreign materials are destroying the tire and as long as braking, accelerating and steering forces are within the normal driving-conditions.

Ambient Temperature
Hercules industrial tires can operate at ambient temperatures from -30°C up to +50°C. Higher ambient temperatures can however be allowed after a technical review and a written acceptance of the application by Hercules Tire. Tire parameters, such as deformation and rolling resistance might be influenced accordingly.
Storage
Hercules industrial tires have to be stored in a protected environment (a dark and dry place, away from ozone), as specified in the ETRTO Recommendations.

Tire-Fill
The protection policy will become void for all tire-wheel assemblies filled with tirefill, unless the material and filling process have been approved by Hercules Tire and the filling has been done in line with the filling specifications from the tire-fill supplier. One should also consider that stresses on wheels and impacts on carcasses will be intensified for tire-filled tires.

Exclusions
• Tires purchased as seconds, mark downs or used;
• Failures related to field or road hazards including cuts, punctures, impact breaks and stubble damage;
• Failures relating to improper mounting procedures;
• Failures relating to overloading or use at speeds in excess of the maximum recommended speed;
• Tires mounted on rims which are not recommended by the Tire and Rim Association;
• Uneven or rapid wear due to mechanical irregularity of the vehicle;
• Tires that have run under or over inflated;
• Damage resulting from fires, accidents, chemical corrosion or vandalism;
• Weather cracking or ozone damage on tires more than three years old;
• Tires that have been used in applications other than the application for which the tire was designed;
• Incidental or consequential damages.

Protection Clause
All Hercules industrial tires are covered against defects due to materials or workmanship. This Protection Policy remains valid for three (3) or five (5) years from the date of manufacturing. The validity of this protection Policy depends on the tire type and on the conditions described in the general standards:

a) for solid resilients: as long as the safety line, marked on the sidewall of the tire by “60 J” is not reached.

b) for press-on solid tires: as long as one third of the total rubber height has not been worn (in other words, as long as 2/3rd of the rubber section height is still available).

c) for pneumatic tires: as long as tread lugs are available in the center part of the tire.

If the customer finds a failure to a tire, a request for an adjustment should be made by calling 1-844-708-7291 or sending an e-mail to Hercules.adjustment@herculestire.com.

Thermal explosions due to a WDAS above 2.5 km/h on budget solid tires and 5 km/h on budget pneumatic tires are not considered a manufacturing defect and are therefore not warrantable.

If our analysis shows a tire has failed under this Limited Protection Policy, we will make an allowance against the current list price towards the purchase of a new Hercules tire relative to the unused portion of the tread on the defective tire. The cost of transportation, service and sales tax, already paid will be borne by the owner of the tire making the claim. This guarantee is for the exclusive benefit of the owner and this warranty is not assignable. Hercules Tire does not warrant against consequential or incidental damage arising from defective tire.
